Dark Lotus

There's a witch trapped in this song  
There's a witch trapped in this song  
She'll hurt you  
She'll haunt you  
She'll curse you if she want to

There's a witch trapped in this song  
No hate and hear the words of the Lotus marked forbidden  
Don't memorize or repeat what I say  
Grabbed a pen started writin' then blacked out for days  
This crazy ass bitch is out for Juggalo souls  
Hauntin' this track and over 200 years old  
Think about fast forwardin cause you won't live long  
Each word is damned 'cause there's a witch trapped in this song

I get the fire every night burn her at the steak for all to see  
Gas all on the evil person weep and final scream  
Or so it seems after ashes gone but on the floor  
Possession of the listener trapped in this song  
Committin to recite what she writes out of spite  
To the people who betrayed and slayed her on that fateful night  
Kill yourself non-believers are haunted will never end  
As long as the blood still flows from the pen

There's a witch trapped in this song I don't know how  
She haunts the rhythm and she won't come out  
She made my headphones bloody and blew all my speakers  
I can hear it playin in the farthest reaches  
I can't shake the rhyme out of my mind  
It plays all the time repeat rewind  
Peek deep you'll find she infects the keys  
And bends the melodies any way she please

She hides in my mind inside  
Rhymed like each word embedded in my mind and keep her  
Just like he turned in hell I suddenly blacked out  
Awakened by the screams of the witch after passed out  
Helpless, feelin left out and selfless  
Possessed by the witch who hides like reflection  
Rebellious inside of my musical section  
My connection to the witch's selection

There's a witch trapped in this song  
Imprisoned in the musical dimension for sins and 40 years long  
Caged between the snares of force-  
fed rythm and ate all 8 pounds like her heart unforgiven  
She can remember her life and ever breath she would take  
For 4 decades as she passed through music for wreckin the tape  
The compact disk, the digital downloads every time you sample the song it's  
like a piece of  
her soul

Of the Old Gods. And that can mean all sorts of Old Gods.  
Possession and about Witchcraft goes terribly wrong. You have a fairly explosive sort of combination.  
Literally trapped in the sky. Nothing between you and the universe.  
Please join us in our circle tonight, Hail and welcome. Hail and welcome.  
Practicing witchcraft skybled is a more open form of expression.  
This incantation is kinda sexual and people dancing around a fire, so therefore they must have  
been having a great big sexual orgy
