

# The Mysterious Maiden

Dark Moor

Soul of mine,  
When road's lonely,  
She came to me in the skyline,  
Her look was divine  
Her black hair  
Danced with the wind,  
And the cold air  
Of autumn  
Played with leaves while my soul skinned  
Her eyes were my glare  
Her sweet voice  
Pronounced my name  
My soul was a choice  
She called me  
While her white dress was my blame  
She could be my dame  
[Chorus]  
Grey  
Dusk is, over the way  
White ghost,  
In my heart,  
My loving soul was hurt,  
Dark hopes beyond my mind.  
And so I resigned  
All for her cold dream's love  
I went there  
Each evening  
My only care,  
Don't see her!  
While my heart played in a swing  
Falling in despair  
Then I dreamed  
With her sad death,  
And my soul screamed  
Harrowing  
While she gave me her cold breath,  
She kissed me  
[Chorus]  
But grey  
Dusk is, over the way  
White ghost,  
In my heart, My loving soul was hurt,  
Dark hopes beyond my mind.  
And so I resigned  
All for her cold dream's love
