Goodbye

Dark New Day

This time I'll never hear you (I'm never gonna hear you) Just go blind (just going so blind)

It feels so good when I say it Goodbye to you There's no good way to take it Goodbye to you

I wonder if you notice How many runaways You came for the rise! It's mine, you cannot steal What you can't find (what you'll never find)

It feels so good when I say it Goodbye to you There's no good way to take it Goodbye to you

So long! So long! So long! So long!
