

## Toy

Dark Suns

Walking over the edge's green  
my body's aching since I've jaded for the spotlight will  
an applauding tune  
skills bound tendency  
you faked it perfectly  
pulled the strings like every boy plays real life with a  
toy  
walking over the edge's green  
drink water from the spine  
the offer is notorious but I won't refuse  
every dread a pill  
entrusted milk I spill  
hear my call across the water  
drink to me when your bodies expose  
Sing with me that song  
I spread my wings today  
Get round to bend my way
