

Faithless by Default

Dark Tranquillity

To ends unknown by means unworthy
To answer wishes, long dead and gone
Old empty promises, a just reward for the blind
Belief makes work for idle minds, we lost our way
We lost our way

The only dream that matters is the one you wake up from

Go... onward to the singularity
Whatever they say, whatever they do just go
Turn on this unentity
Whatever they say, whatever they do just go
We are faithless by default
We are faithless by default

We call for a world where we are nothing
More than the sum of what we know
Are we to be held hostage
By our intolerance for the intolerant
Then we've lost our way
We've lost our way

To hope is to surrender in this series of defeats

Go... onward to the singularity
Whatever they say, whatever they do just go
Turn on this unentity
Whatever they say, whatever they do just go
We are faithless by default
We are faithless by default

We've lost our way
A pain far too familiar
Denounce your savage self

Go... onward to the singularity
Whatever they say, whatever they do just go
Turn on this unentity
Whatever they say, whatever they do just go
We are faithless by default
We are faithless by default
Faithless... by default
