

# Awakening

Darkane

Silence all around  
Shards of pain caresses my skin  
Light emerging far out  
In the distant corners of my consciousness

Slowly my mind is moving, melting  
Dripping into the sea of reality  
Slowly my mind is moving, melting  
Breaking the shell of oblivion

Close! So very close!  
Awakening! A growing darkness  
Close! Eerily close!  
Awakening! This lustrous darkness

Embracing confusion  
Open my unseeing eyes

Slowly my mind is moving, melting  
Dripping into the sea of reality  
Slowly my mind is moving, melting  
Breaking the shell of oblivion

Close! So very close!  
Awakening! A growing darkness  
Close! Eerily close!  
Awakening! This lustrous darkness

Slithering shiny tentacles  
Reaching for my soul

Rising towards a sound  
A deafening hollow ground  
The feeling of speed  
An accelerating venomous bliss  
A touch, a dump, a thrashing rip

Smells of burning air  
Flowing into dark hidden flesh  
Fending for the taste of life  
Memories awakening forming my persona

Slowly my mind is moving, melting  
Dripping into the sea of reality  
Slowly my mind is moving, melting  
Breaking the shell of oblivion

Close! So very close!  
Awakening! A growing darkness  
Close! Eerily close!  
Awakening! This lustrous darkness
