

## No Future

Darkbuster

It's hard to believe that there ain't anymore  
You're ash to ash  
you're dust to dust

You wanna know why I live like there's no future  
You wake up one day it'll all be gone  
It's all gone

Live life like there's no future  
Live like there's no future tonight

Where did you come from and where have you been?  
You're playing a game you can never win  
You won't win

You wanna know why I live like there's no future  
You wake up one day it'll all be gone  
It's all gone

Live life like there's no future  
Live like there's no future tonight
