

And maybe everyone else is wrong
And maybe you are the one
That liked me all along
The anti-axis is just fine
We rest every night
This is our way to success

Wake me up when it's over
I know I'm not okay tonight
Well be careful
You can never stay
You can never decade
But its not over
It's never too late

Separating
Washed away

Wake me up when its over
I know Im not okay tonight
Well be careful
You can never stay
You can never decade
But it's not over
It's never too late

Stay beyond when I'm sick
I remember you were wearing black
And everyone was seeing your son to distract
Never let you, never give it back

And maybe everyone else is wrong
And maybe you were the one that liked me all along

It can never decade
But it's not over
It's never too late
It's not over, it's never too late
It's not over, it's never too late
