

Different Eyes

The Darkness

I've always loved the game
This is the best I've ever played
I think I've hit a purple patch
Just making lemonade
We'd come so far together
Then I took a different road
You pushed me away from you
Now you can watch my life explode

Now I'm seeing the world through different eyes
I see the world through different eyes
Through different eyes

I know you like to torture me
Is that the best that you can do?
It doesn't hurt at all
I'm not afraid of you
I always find the power
To die another day
You find out who your friends are
When somebody takes your life away

Now I'm seeing the world through different eyes
I see the world through different eyes yeah

Now I'm seeing the world through different eyes
I see the world through different eyes
Now I'm seeing the world through different eyes
I see the world through different eyes
Through different eyes
