

# Easter is Cancelled

## The Darkness

I die in vain  
I have lived to no avail  
The path forks before you  
Drive in the final nail  
A thousand years of chaos  
And a thousand more  
Pestilence and famine  
Violence and war  
Rise of the arseclowns  
Burning everything  
We cannot trust the air we breathe  
And the birds no longer sing

Easter is cancelled  
No more death and no rebirth  
Peace on planet earth  
Easter is cancelled  
And the children do not dance  
Give the world a chance

Peace  
Time  
Peace on planet earth  
Huh

Tell me children  
Can you live with what you've done?  
Aren't you disgusted  
By what you have become?  
Mesmerized by evil, feasting on their lies  
Too high on the smell of your own fear to realize  
Spreading disease so they can sell the cure  
Goodness is always diluted, evil is always pure

Easter is cancelled  
No more death and no rebirth  
Peace on planet earth  
Easter is cancelled  
And the children do not dance  
Give the world a chance

You wait a lifetime for an angel  
Demons tearing you apart  
Consequences of betrayal  
In the end you break your own heart

Easter is cancelled  
No more death and no rebirth  
Peace on planet earth  
Easter is cancelled  
And the children do not dance  
Give the world a chance
