

Happiness

The Darkness

This is the best summer ever
We're so gonna make love tonight
Alone on the beach here together
Holding each other so tight
And I said
This is my heart
No-one ever broke it
Don't worry about my ego
You don't have to stroke it
Repeat after me
I love you
(I love you)
You said it

Happiness
Happiness
It's the best summer ever, ooh

I went for a dip in the ocean
And shook the sand out of my locks
You got me feeling emotions
Let us make love on the rocks
The sun was setting
In the west
I was in my Speedos
You were fully dressed
Do you really love me? (I love you)
That was a test
And you passed

Happiness
Happiness
It's the best summer ever, ooh

Happiness
Ooh
Again, again and again
Whoo!

Happiness
Happiness
It's the best summer ever, ooh

Happiness
Happiness
It's the best summer ever, ooh
