

## In Another Life

## The Darkness

Heart and soul  
On the line  
I can't find a way  
To make you mine  
Honey, times are hard  
Our love is cursed  
But in a parallel  
Universe

We keep it together  
Leave each other never  
Every other day an Ascension  
No pain or whatever  
Me and you forever  
Love in another dimension

In another life  
In another life  
I will make you mine  
In another life  
In another life  
I will make you mine  
In another life  
Woah

Why don't you  
Understand?  
Don't you feel the spark  
When you touch my hand?  
You're in my head  
You belong to me  
In an alternate  
Reality

We keep it together  
Leave each other never  
Every other day an Ascension  
No pain or whatever  
Me and you forever  
Love in another dimension

In another life  
In another life  
I will make you mine  
In another life  
In another life  
I will make you mine  
In another life

Where the eagles dare  
To love one another  
Put their feathers around each other  
To build a nest and put an egg inside of it  
On a mountain top  
In another life

In another life

I will make you mine  
Yeah  
Oh yeah  
Oh yeah, oh yeah, oh yeah  
I will make you mine in another life  
I will make you mine
