## She's Just a Girl, Eddie

## **The Darkness**

That girl has gone and broken your heart Like pulling the wings off a fly Come on Eddie don't fall apart Plenty more birds in the sky

But your sky is black The ocean's rising and you can't hold it back

She just a girl Eddie I know it feels like the end of the world She just a girl Eddie There are four billion other girls Who want to make love to you

She's not an angel sent down from above She's just a hand that you hold She doesn't love you when push comes to shove That warm fuzzy feeling has gone cold

Feels like you're dead inside You've got a broken heart and wounded pride

She just a girl Eddie I know it feels like the end of the world She just a girl Eddie There are four billion other girls Who want to make love to you.....And me

You're not the first Eddie Way back in caveman times Sabre toothed cave ladies chewed up and spat out our hearts

She just a girl Eddie She's gone already Just let her go Eddie There are four billion other girls Who want to make love to you
