

Walking Through Fire

The Darkness

Our next long player ooooh it's coming out soon
I'll be honest, I'm under the moon
We're only doing this' cos it's fun
Don't even think my mum bought the last one

I can't help
Falling in love with rock and roll
I can't help
Falling in love with rock and roll
So I'm walking through fire
Living my life on the wire

Hair and make up
Reluctantly, here we go
Waste another precious day shooting yet another shitty video
That nobody's ever gonna see
Least of all, me
I can't help
Falling in love with rock and roll
I can't help
So I'm walking through fire
Living my life on the wire

We never stopped
Making hit albums
It's just that no-one buys them any more

I can't help
Falling in love with rock and roll
I can't help
Falling in love with rock and roll
So I'm walking through fire
Living my life on the wire
I'm walking through fire
Living my life on the wire
