DARKOO

Ah, dit, dit

You keep calling me (Dah, dit, dit)  
I need your loving and it's urgency  
All of me, can't you see?  
Is it the way that you expect of me? Oh  
And I said, Give me palaver (lava)  
Hot as spice, shawarma  
Come back around like a camera  
You no say your body is badder  
And I say, give me palaver (lava)  
Hot as spice, shawarma  
Come back around like a camera  
You no say your body is badder

Am I too short? Am I too slow? Ra, ra  
To my check, your body on my right, ra  
If you want some, I'll make, don't play around  
Give you this energy all day long  
Give you all this energy  
Baby, what you've done to me?  
I can't even stop and think, babe, you belong to me

Me no waste time  
Up and down, me no waste time  
Drop and tie it pon your waistline  
Heard your body bad from the grapevine  
Baby, take time  
Inch your body next to mine  
Really wanna make you mine  
We can have a good time  
If you call me again

You keep calling me (Dah, dit, dit)  
I need your loving and it's urgency  
All of me, can't you see?  
Is it the way that you expect of me?  
And I said, Give me palaver (lava)  
Hot as spice, shawarma  
Come back around like a camera  
You no say your body is badder

Come into my room if you can see what I can see  
Shawty, take your time if you can feel what I feel  
It's only you and me (me), baby  
Let's see what we can be, baby
