

Pick Up

DARKOO

When I call you, no pick up
You don't answer, put me on missed call
When I call you, let's link up
You don't answer, tell me, what do you want?
Cause you know I'm falling, falling
Falling, falling, falling
Baby cause you know I want it, want it
Want it, want it, want it
Baby, yeah

Why you calling me your friend?
True say I wanna make amends
I just want you back, baby, baby
I don't want this to end
Reminiscing when I saw you at a party, looking so naughty
I couldn't believe my eyes
Reminiscing when you touching my body, rubbing my body
Calling on my name all night

Cause we just more than friends, more than sex
More to this thing
Cause we just more than text, more than flesh
You drive me crazy

When I call you, no pick up
You don't answer, put me on missed call
When I call you, let's link up
You don't answer, tell me, what do you want?
Cause you know I'm falling
Falling, falling, falling, falling
Baby cause you know I want it, want it
Want it, want it, want it
Baby, yeah

Feeling like I gave you my love for nothing
All of my trust for nothing
Baby, would tell me something?
Cause you got me really hurting
Ooh, na-na-na, na
It's like you are my lifeline
I need you, man, I can't lie
I want you for a lifetime

Cause we just more than friends, more than sex
More to this thing
Cause we just more than text, more than flesh
You drive me crazy, yeah

When I call you, no pick up
You don't answer, put me on missed call
When I call you, let's link up
You don't answer, tell me, what do you want?
Cause you know I'm falling
Falling, falling, falling, falling
Baby cause you know I want it
Want it, want it, want it, want it
Baby, yeah

I can't recognise you, baby
You so different from what I knew
Cause you got a new man on the D-low
Swear we had plans, where did we go?
All up in your emotions from a deep stroke
Caught up in your ocean, Finding Nemo
So when you fucking him, I hope you say my name
(I hope you say my name)
So when when he leaves you, I hope you feel my pain
(I hope you feel my pain)

When I call you, no pick up
You don't answer, put me on missed call
When I call you, let's link up
You don't answer, tell me, what do you want?
Cause you know I'm falling, falling
Falling, falling, falling
Baby cause you know I want it, want it
Want it, want it, want it
Baby, yeah

When I call you
You don't answer, tell me, what do you want?
When I call you
You don't answer, tell me, what do you want?
When I call you
You don't answer, tell me, what do you want?
When I call you
You don't answer, tell me, what do you want?
