

I'm The Echo

Darkside

Rather walk away with fear
Than talk and see it give up
You'll find it in a sermon
You'll find it in a burning sun
Among fables and
These new lies
We never gave it a hope
Or medicine
It's the same if we deny
What was said
You never gave it a home
So words could learn to give out
And I haven't seen it all
But I have seen you
You're the lesson in the hall
I'm the echo in the room
Rather walk with fear
Than talk and see it give up
You'll find it in a sermon
You'll find it in a burning sun
Among fables and
These new lies
We never gave it a hope
Or medicine
It's the same if we deny
What was said
You never gave it a home
So words could learn to give out
