

## Paper Trails

Darkside

Better go back  
Rhythm inside  
Better go back  
Here inside

I told you I would get you  
The back of the hand  
I told you I would find  
A place to go

Paper trails on a mountain  
And fruits on a table  
A wooden house to live in  
A baby to care

The grass green but the  
The sun is blue  
Better find a way  
To get through to you

Where are you when I need you?  
Where did you go?  
How can I find you when I need to?  
Where should I go?

Paper trail on a mountain  
And far away  
A big trail on a mountain  
You'll find a way

The fire outside  
It's burning up place  
But you're inside  
Burning up ahead

Paper trails on a mountain  
And fruits on a table  
A wooden house to live in  
A baby to care
