

## Down Here

Darlingside

That's me  
A robitussin dream  
An underwater trip  
Everything is moving

By  
Behind a syrup screen  
Just as it is  
Or as it was  
Or will be

Down here reds are redder, water is wetter  
Down here life is more alive

And you  
You got a front row seat  
To whatever show this is  
Bubbles at your feet

But you've been  
Holding too many things  
For so long  
Too many little ones like me

Down here reds are redder, silence is deader  
Down here life is more alive

Cause what you loved  
When you were young  
Will never make you young again  
There will come  
A time to let it go, go, go

Down here reds are redder  
Down here life is more alive  
Reds are redder, you and I are better  
Down here life is more alive

The drop  
Is further than you think  
Is it the night or the nightjar  
Or the storm crackling
