

Only Echoes

Darlingside

Only echoes when I call to you

Do you run perpetually late?

I'm the early bird I've fallen for the bait

I want you now

I want you now

I want you now

Water doesn't make a fire grow

Like a pistil after all the petals go

I want you now

I want you now

I want you now now now now

Hello? Hello?

I swear I've got my head on straight

I've been sitting like a duck I need a break

I want you now

I want you now

I want you now now now now

Patterns on the ballroom floor

I take issue with the patterns on the ballroom floor

I want you now

I want you now

I want you now now now now

Only echoes when I call to you

I call to you I call

Yesterday today tomorrow

Is too far away from

Hello? Hello?

Only echoes when I call to you

Only echoes when I call to you

Only echoes when I call to you

Only echoes when I call to you
