

There was a time  
How did we go about it?  
One step at a time  
Now we're happy standing  
Still I love you still

Everything stays just like the old days  
We get a sip and then we sip it till it's dry  
Count all the ways it's just like the good days  
We get a whiff and then it's with us till we die  
Still it's with us still  
Still I love you still

"And now a message from our sponsors"  
"We will be with you momentarily"

Shh, what's that sound? It's awful quiet  
But I know that sound, maybe we've still got it!  
Still we've got it still

When do these days become the old days?  
This place gets dustier the more we let it in  
Count all the ways it's just like the good old days  
Take a number and we'll go around again  
Still we're going still  
Still we've got it still  
Still it's with us still  
Still I love you still

"We do appreciate your patience"  
"Your satisfaction is our first concern"  
"Locate the nearest exit"

Carry on, don't get me started  
It's what we've got, it's what we wanted  
Still we want it still  
Still we've got it  
Still it's with us  
Still I love you still
