

# Come into This Room

Darrell Scott

Come into this room and  
I'll make us some memories  
Time will be listening  
As a shadow on the floor  
And the shadow will listen  
And leave us in darkness  
And an open heart and  
Candles is all we need  
Nothing more  
Come into this room and  
Let the night before wonder  
We'll speak about where  
We going and we'll talk  
Where we've been  
Have a coffee or a whisky  
Or some wine I've been saving  
We'll drink it to the bottom  
And we'll fill it up again  
Come into this room  
The songs we'll be singing

From a whisper to a scream  
We'll make the rafters shake  
And We'll sing like we're children  
And we'll sing like we were masters  
It's all the same cause in this room  
There are no mistake

Come into this room and  
Bring along a loved one  
With your hands make music  
That will set your spirit free  
Is the music playing you  
Or are you playing music  
At this time in this room  
Is where we're supposed to be  
Come into this room and  
And we'll make up some memories
