

It's Time to Go Away

Darrell Scott

Oh it's time to go away
We've been at each other's throats now
Staring out the window
Waiting for the dawn
And you've tried real hard to please
But I will not be your employer
Freezing you with things
You did and didn't do

But all the times were good
And I home in my absence
I won't be misunderstood
Cause I take with me the truth
That it's hard to be together
But I will take with me the truth

That I had to be alone

I'm a little disappointed
About the way I have been behaving
You don't know if you should hold me
Or in silence turn away and it doesn't matter
Oh either way you go you losing
Cause I'm losing for a reason
That I stayed here anyways

Oh it's time to go away
And nothing bears repeating
There's nothing left but leaving
It's just time to go away
