

Oh Sweet Longing

Darrell Scott

[Verse 1]

I dreamed of you in white dress and garlands
[?] golden to give you away
With Riesling and huckleberries gracing the table
Teaching the children to laugh and to pray

[Verse 2]

I grieved for you in the hills of Sienna
I called out your name to the great North Sea
I reached for your hand in a snowfield near Gardner
My longing for you always brought me to me

[Chorus]

Oh, sweet longing
I drink from a cup that will never be filled
Oh, sweet longing
I long for you now and I always will
Always will

[Verse 3]

From the foot of a redwood I looked up in wonder
From the side of a canyon in fresh fallen snow
On the bank of a mountain stream I heard you calling
I know I must follow wherever you go

[Chorus]

Oh, sweet longing
I drink from a cup that will never be filled
Oh, sweet longing
I long for you now and I always will
Always will

[Verse 4]

I live in the hope you stir up inside me
Filling my heart and filling my eyes
Like a river love flows to the valley below me
I stand on a mountain and hear my own cry

[Verse 5]

I believe in old souls, I believe in forever
I believe that this moment is all we can see
I believe in the one who calls lovers forward
My longing for love always brings me to me

[Chorus]

Oh, sweet longing
I drink from a cup that will never be filled
Oh, sweet longing
I long for you now and I always will, always will
