

# Do You Remember?

Darren Hayes

Do you?

Do you remember the love?  
Do you remember we were in love?  
Do you remember the club?  
Do you remember we were in love?

Boy you're right in front of me  
I need you to dance with me  
Ohh you're right in front of me  
I'm gonna need your hands on me

Do you?

Do you remember the love?  
Do you remember we were in love?  
Do you remember the sound?  
Listening to 'Ray of Light' and we were in love

Boy you're right in front of me  
I can taste my destiny  
Ooh let your lips meet mine  
I think you can handle me

1990's no cell phones  
If you wanted to meet someone you had to leave your home  
We can dance or we could ...  
I can see from bedroom eyes that you don't like to talk  
Back to yours or my hotel  
Grab your coat, hail a taxi, snow's just started to fall  
I could be a star, I could be a total unknown  
Got to see you naked I just got to get you all alone

Boy you're right in front of me  
I need you to dance with me  
Ooh you're right in front of me  
I'm gonna need your hands on me

Boy you're right in front of me  
I can taste my destiny  
Ooh let your lips meet mine  
I think you can handle me

Oh yeah ooh  
Boy you're right in front of me  
I want you to dance with me  
Boy ooh right in front of me  
Hoo ooh boy you're right in front of me  
I wanted you to dance
