Governments elected nobody votes  
Politically correct isn't that a joke?  
We censor music then give children guns  
On CNN  
Still fightin' to death over Jerusalem  
Four letter disease still makes us run  
Can't comprehend that you can die from Love

Can I start things over  
And change your mind  
Can I sing a melody  
Press rewind  
Can I move your feet make your heart skip a beat  
Can a simple tune flow through you?

When the music feels like this  
When you lose control you gotta go with it  
Ten feet high  
Flyin' above the sky  
Your problems don't exist  
When music feels like this

No money left in Africa  
Starvin' to death  
In Bosnia we close our eyes and hide a nation cries  
And In the West  
TV Possessed and weight obsessed  
The media dissects, infects  
We think real life is reality TV

Can I have your attention  
And Press rewind  
When the DJ spins  
Will it change your mind?  
Can I move your feet  
Make your heart skip a beat  
Can a piece of me Flow through you?

When the music feels like this  
When you lose control you gotta go with it  
Ten feet high  
Flying above the sky  
Your problems don't exist  
When music feels like this

When the Music feels like this  
DJ take control  
And Grab a hold of me  
Spin that wheel  
Tell me how to feel  
I like the shape I'm in  
When music feels like this

Bringin' the beat back  
Stompin' the floor  
Dancin' like a booty never bounced before

Poppin' to the back beat  
Up on the one  
Smack Jack Freakin' now you're overcome

When the music feels like this  
When you lose control you gotta go with it  
Ten feet high  
Flying above the sky  
Your problems don't exist  
When music feels like this

When the Music feels like this

DJ take control  
And Grab a hold of me  
Spin that wheel  
Tell me how to feel  
I like the shape I'm in  
When music feels like this

Let the music in  
Let the DJ spin  
Let the music in  
Coz the music should feel like this  
Feel the music
