

## Touch The Sun

Darren Styles

Tell me now as darkness falls  
You will always hear me come  
A dream about you baby night and day  
I close my eyes and kiss your lips  
I've never had a night like this  
As memories of a lonely life just fade away

As I touch the sun  
As I dream today  
I never feel afraid,  
As I touch the sun and our worlds collide  
I want you for the rest of my life

I want you for the rest of my life
