

## Do Something Good

Darryl Worley

This old world is full of hurt and pain  
A little sunshine and whole lotta rain  
It don't take much to drive those clouds away  
Let's all do something good today

You never know what someone's going through  
Don't underestimate what you can do  
A friendly smile's a tiny price to pay  
Let's all do something good today

A little wink, a pat on the back  
A big old hug, a little laugh  
We can make a difference, all we have to do is try  
Yeah every day's a chance to change somebody else's life  
Let's all do something good today

A little wink, a pat on the back  
A big old hug, a little laugh  
We can make a difference, all we have to do is try  
Yeah every day's a chance to change somebody else's life

We're all just broken people on a journey home  
Spread a little love before your chance is gone  
We may never see tomorrow anyway  
Let's all do something good today  
Oh, won't you hear me people when I say  
Let's all do something good today

Mmh, something good today
