

Always There

Darwin Deez

Engine falter sputter dash flashing pull over so nervous
Freezing dark moonlit highway walk sideways no service
Flatbed tow warm cab big driver soft radio "I'll just grab my b
ag"
Bright empty lobby white keycard small fridge loud ice machine
such a drag

You, always there
Always there
Always there
(Always there)
You, always there

Minotaur bored at an airport nowhere for it just watching plane
s touch down
Lone suitcase rides on a carousel from the stairwell, I watch i
t come around
Any idea how far how long how many movements
How many times I've drowned

You, always there
Always there
Always there
(Always there)
You, always there

Oh travel around the world
I don't know where I would be without you you

You, always there
Always there
Always there
(Always there)
You, always there
