

# Caroline

Darwin Deez

Then knight G5 and I'm just down a rook  
He places it beside the other black pieces he took, and taps the clock  
Well I stand up in shock and think of you  
He settles in his metal folding chair  
No checks anywhere

And then I pop two Tylenol  
Some days I'm like "why even try at all?"  
Plane crash evacuation floatation device  
I follow your lights but you are gone  
Now all that's left of you is my song

Caroline, Caroline, oh  
Honestly, I'm just so scared that I'm missing every move  
Caroline, you've, got to, got to help my chances improve  
Please, don't let me lose, Caroline

Help me get my groove back, I am blue and black and battered on the floor  
Sometimes when I talk to you I miss you even more  
King has no good squares to run to and bishop takes knight  
I'm so bad that I can't even force a draw when I'm white  
So much for that title  
But at least I have you

Caroline, Caroline, oh  
Honestly, I'm just so scared that I'm missing every move  
Caroline, you've, got to, got to help my chances improve  
Please, don't let me lose, Caroline

I'm juju, I don't know what to do  
I have my jacket...  
Now, I don't know what this water is, lemme see ya, paw-paw, water  
Who's this person? Oh, I know, it's shireenie beanie...
