

Drive Around

Darwin Deez

I drive around in circles when you're not around
I'm digging deeper grooves into the path I've found
Scan the radio for static silences
I'm in the car you kissed me in, way back when

You never did give a reason for leaving
And now I'm stuck behind the wheel and I'm freezing
I make a left and then make a left again, and again
I just don't know what I'm doing darling

Don't call cause you'll never call me back
Don't call cause you'll never call me back

Do you miss me?
Do you hate me?
Are you with some johnny-come-lately?
The J train rumbles loudly overhead
Sometimes I just wish I were dead

Don't call cause you'll never call me back, yeah
Don't call cause you'll never call me back

Don't call cause you'll never call me back, yeah
Don't call cause you'll never call me back
