The alarm is going off Someone pulled the leather Two minutes till they come Get those bags together

Yeah [?] steal you for my own Be quick, our cover's blown

Aim back out through the skyline Leave the ropes behind Shattered glass at twilight Keep the engine primed

Yeah Steal you And make my getaway

Steal you and make my getaway Steal you and make my getaway Steal you and make my getaway, yeah Steal you and make my getaway

Okay I think we're safe Sh, quiet and listen, footsteps The teller saw my face We give that money home You'll never catch us now Switch the car we're driving Wipe my sweaty brow

Steal you and make my getaway Steal you and make my getaway Steal you and make my getaway, yeah Steal you and make my getaway Make my getaway
