

Mush Machine

Darwin Deez

I can too parallel park it takes a couple tries though
When you get mad you get quiet and stare daggers out the window
If we were on a Russian submarine, you would flush me right out
Your silent treatment's louder than any words you could shout

But I'm all warmed up now, I'm all warmed up

There's nothing you can do to stop me loving you
Even though I seem like mush machine, it's true
There's nothing you can say to keep my love away
No matter how mean you are mine 'cause I'm a mush machine

I will too marry you and give you a mega hall pass
Off-white small type ceremony under a tree or in the tall grass
Your silence now is golden to me I've come to understand
And you can roll your brown eyes clockwise and criticize my life plan

But I'm all warmed up now, I'm all warmed up

There's nothing you can do to stop me loving you
Even though I seem like mush machine, it's true
There's nothing you can say to keep my love away
No matter how mean you are mine 'cause I'm a mush machine

I don't give up and I don't get tired
Indefatigable that's the way I'm wired
The world will pardon my paste

There's nothing you can do to stop me loving you
Even though I seem like mush machine, it's true
There's nothing you can say to keep my love away
No matter how mean you are mine

There's nothing you can do to stop me loving you
Even though I seem like mush machine, it's true
There's nothing you can say to keep my love away
No matter how mean you are mine 'cause I'm a mush machine
