

The Missing I Wanna Do

Darwin Deez

We threw a blanket on the wet ground and found Orion
Under the apple tree, you and me safe and silent
Watching the stars glow, girl I'm so glad we're here together
But you're on me like a fireant, oh, you can't rush forever

See, I like you
But oh, you move so fast
I want it to last

So can we go slow?
Cause I wanna be all for you
And if I'm ever alone
Then how, how will I do the missing I wanna do?

Cause I wanna miss you
And if we die here drinking beer
Gazing at the blue moon
Then you can marry me
Otherwise soon is too soon

Cause I like you
But oh, I like my space
And it isn't a race

So can we go slow?
Cause I wanna be all for you
And if I'm ever alone
Then how, how will I do the missing I wanna do?

I need you here, believe me dear
But I need you gone for a while though
I need to pour more over my findings
Of what I feel when your smile shows

So can we go slow?
Cause I wanna be all for you
And if I'm ever alone
How, how will I do the missing I wanna do?

So can we go slow?
Cause I wanna be all for you
And if I'm ever alone
How, how will I do the missing I wanna do?
Cause I wanna miss you
