

Wondermaker

Darwin Deez

I take the weight of the world and divide by two and get you
The stadium stage is a hotel mattress we can jump on, too
Heavens to Betsy, this is Betsy, go ahead
I did a hard reset, blew a motivator and woke up dead

But my wondermaker's working
My wondermaker's working now
My wondermaker's working
My wondermaker's working

I heard prayer is a tech support call to Bangladesh
Ice cream à la mode and David all koresh
Jesus saves, but Jesus clearly never saved as
My mind's making a weird noise and my wife is Cameron Diaz, wtf
?

And my wondermaker's working
My wondermaker's working now
My wondermaker's working
My wondermaker's working now

Some things are so right, it's messed up
My own imagination the perfect dumb rut
And I can adjust it for you if your wondermaker won't start
I can adjust it, just gimme the PIN number to your heart, yeah

My wondermaker's working
My wondermaker's working
My wondermaker's working now
My wondermaker's working
My wondermaker's working now
