

All the Same

Daryl Braithwaite

Just two young hopefuls
Looking for someone
Hold back for something
Pushed all the way

All the same
But you're - you're getting nowhere
And it's all the same
But you don't know why you lose

They say you ought to be happy
With what you've been getting
Go take anyway you can find, on your own
All the same, and you're chasing connections
It's all the same, and you're feeling low

All the same
'Cause you 're looking like you've got no - one
It's all the same
'Cause you're feeling like they're keeping back
And then
It's all the same, feeling like you've got no-one
All the same, come on out and enjoy your life

Go in hope, there's a light in the distance
You'll find someone who'll hold out the key
All the same... every moment
And it's all the same
If it's just for a day... look away

All the same
When you look around and no-one's there
It's all the same
When you find it's almost taken over
It's all the same
When you're having it all with no - one to share
It's all the same
Sometimes you never know when to stop

All the same
When you look around and no-one's there
It's all the same
When you find it's almost taken over
It's all the same
When you're having it all with no - one to share
It's all the same
Sometimes you never know when to stop

Look at you, looking at your reflection...
