

Sugar Train

Daryl Braithwaite

I took the time to count the miles on my face
It's funny how the towns go by
I was standin' on a dream long ago
I don't know how I survived

Get on that sugar train
Get on that sugar train
Oh, there's a lot to learn, everyone
That sugar train
Get on that sugar train
Oh...

I met a girl who watched me change like the wind
And she knew just where to go
She brings a man like me right down on my knees
It's funny how I need her so

Get on that sugar train
Get on that sugar train
Oh, there's a lot to learn, for everyone
That sugar train
Get on that sugar train

There is some place for everyone
I see the endless rail as far as it can go
Made of blood, sweat and soul
When I hear that silver eagle whistle blow
Oh...

Get on that sugar train
Get on that sugar train
Oh, there's a lot to learn, for everyone
That sugar train
Get on that sugar train
There is some place for everyone
That sugar train
(Get on that sugar train)
Get on that sugar train
(Get on that sugar train)
There is some place for everyone
That sugar train
(Get on that sugar train)
Get on that sugar train
(Get on that sugar train)
