I wanna go up where something matters I wanna blow up where matter scatters I wanna live into the future I want to give... more girl

Next Step
No side stepping this time
Cross over life on the line
One thing to talk big
Go to follow thru
All set
Got to get past the present too
Don't want to reach out for yesterday
Don't want to block the shock of the new
I wanna see what new love will bring
I'm gonna give all that love to you

What's the Next Step
My mind is open wide
Next Step
What'll be the Next Step baby
What's the Next Step
I'm finished with the past
Next Step
Won't be the last step baby

You wanna wake up with me beside you
You wanna shake off bad thoughts inside you
We're gonna walk on into tomorrow
We're gonna have more fun NOW
Don't look around for yesterday
No blocking out the shock of the new
Do you wanna see what new love can bring
I'm gonna give all that love to you

What's the Next Step My mind is open wide Next Step What'll be the Next Step baby What's the Next Step I haven't got a clue Next Step Wanna make the Next Step with you What's the Next Step Gonna take it gonna take it Next Step Gonna step right Won't step back What's the Next Step No bad songs No bad songs Next Step Say hey Don't you want to take the Next Step Ring out the old Ring in the new Never know 'til I do what I'm gonna do Say hey
I want to take the Next Step
Say hey

What's the Next Step
My mind is open wide
What'll be the Next Step baby
Next Step
What's the Next Step
Ain't gonna be the last
Next Step
Forget about the past
What's the Next Step

We've got to open up
When the Next Step comes along
I've got to follow thru
Take the Next Step with you
I wanna ring out the old and ring in the new
Come out of the cold
Take a step with you
