

## She's A Woman

Daryle Singletary

She might get a little quiet  
And curl up with her book  
Then out of nowhere  
She'll give me that look  
She'll take me in her arms  
Just like it's been so long  
Just when I think I've got her figured out  
I don't

She's a woman  
Guaranteed to change her mind  
As quickly as she changed my life  
A woman  
With more love in her little finger  
And a heart that never waivers  
Without her I'd be nothin'  
She's a woman

She'll stare at her closet  
And say I ain't got a thing to wear  
And for reasons I don't know  
She might cut her hair  
I tell her how I love it  
She shakes her head just like a child  
When I think she's gonna break down and cry  
She smiles

She's a woman  
Guaranteed to change her mind  
As quickly as she changed my life  
A woman  
With more love in her little finger  
And a heart that never waivers  
Without her I'd be nothin'  
She's a woman

She might get a little quiet  
And curl up with her book
