

Some Broken Hearts Never Mend

Daryle Singletary

Coffee black, cigarettes
Start this day like all the rest
First thing in the morning that I do
Is start missing you

Some broken hearts never mend
Some memories never end
Some tears will never dry
My love for you will never die

Rendezvous in the night
A willing woman to hold me tight
But in the middle of love's embrace
I see you're face

Some broken hearts never mend
Some memories never end
Some tears will never dry
My love for you will never die

Some broken hearts never mend
Some memories never end
Some tears will never dry
My love for you will never die

Some broken hearts never mend
Some memories never end
Some tears will never dry
My love for you will never die

My love for you will never die
