Workin' It Out

Daryle Singletary

You see things your way
I see them mine
Baby, love is the loser
When nobody tries

We've come too far
Just to let it all end
We don't have to break up
If both of us bend

Let's find a way
We've got somethin' worth savin'
Give and take
That's what love's all about

Nobody said
This was gonna be easy
That's why they call it
Workin' it out
That's why they call it
Workin' it out

Don't close the door
And I won't walk away
I'll sit down and listen
To all you have to say

We'll break the silence
That rings in our hearts
Tear down these walls
That keep us apart

Let's find a way
We've got somethin' worth savin'
Give and take
That's what love's all about

Nobody said
This was gonna be easy
That's why they call it
Workin' it out
That's why they call it
Workin' it out

So, let's roll up our sleeves
And build a safe bridge
One that will last
For as long as we live

Nobody said
This was gonna be easy
That's why they call it
Workin' it out
That's why they call it
Workin' it out
