

A Naked Girl

Das Pop

None of them would have me over
None of them could take me there
None of them's ever sober
I don't care
Just a morning after drama
Just another day before
Does it show that I don't want to
Anymore
A naked girl
Will take my picture
A day goes by
It's great to feel
Your hairy
Texture
A day goes by
Without a smile
See me in the early nineties
Sleeping in my underwear
This is where I turn the lights off
Take me there
Everybody's dirty dancing
I alone can hear the sound
Tv makes when it's switched on
Burning out
A naked girl
Will take my picture
A day goes by
It's great to feel
Your hairy
Texture
A day goes by
Without a cry
Evening's slowly falling
Please tell me you're scared
Burn my heavy metal t-shirt
I don't care
There's a summer to remember
Just another never-was
Just another moisty memory
