

# Here Tonight

Dash Berlin

A shattered glass left a broken heart  
A thousand miles and nowhere to start  
But I won't let this pain deceive us, and hide this feeling  
I can't break this love between us, we'll survive through healing

I won't waste, this, love, here tonight  
And I'll embrace, this, love, here tonight, here tonight  
And if I break, my, bones, in the fight  
Feel the love inside us here tonight, here tonight, here tonight

I won't waste, this, love, here tonight  
Feel the love inside us here tonight, here tonight, here tonight

Here tonight

Feel the love inside us here tonight, here tonight, here tonight

I won't waste, this, love, here tonight  
And I'll embrace, this, love, here tonight, here tonight  
And if I break, my, bones, in the fight  
Feel the love inside us here tonight, here tonight, here tonight

Here tonight

Feel the love inside us here tonight, here tonight, here tonight

I won't waste, this, love, here tonight  
Feel the love inside us here tonight, here tonight, here tonight
