

# The Night Time

Dash Berlin

Time to go  
It's time to go  
Whatever this means  
He's happy it seems

The gentle accent moves me forward  
With secrets that I know were true

So I'll be a fleeting sound  
A light-ray out on the water  
And I'll know his secret name  
And tell him about the night time

So I'll be a fleeting sound  
A light-ray out on the water  
And I'll know his secret name  
And tell him about the night time

So I'll be a fleeting sound  
A light-ray out on the water  
And I'll know his secret name  
And tell him about the night time

After night  
In boundless light  
He calls my name  
I do the same

After this  
A simple kiss  
Return my eyes  
A true disguise

The gentle accent moves me forward  
With secrets that I know were true

So I'll be a fleeting sound  
A light-ray out on the water  
And I'll know his secret name  
And tell him about the night time

So I'll be a fleeting sound  
A light-ray out on the water  
And I'll know his secret name  
And tell him about the night time

So I'll be a fleeting sound  
A light-ray out on the water  
And I'll know his secret name  
And tell him about the night time
