

# We Don't Belong

Dash Berlin

We could fade into black, never say a word  
Cut our knees on the glass of a broken world

But oh we're gonna love through the breakdown  
In this planet of madness we're safe now  
You're the only choice I can make now, can make now

Cause we don't belong  
Anywhere but each others arms  
We don't belong  
Anywhere but each others arms  
We don't belong

We don't belong  
Anywhere but each others arms  
We don't belong

Like a drop of gold in the ocean you lit me up  
Feel the warmth overflow in my frozen heart

Oh we're gonna love through the breakdown  
In this planet of madness we're safe now  
You're the only choice I can make now, can make now

Cause we don't belong  
Anywhere but each others arms  
We don't belong  
Anywhere but each others arms  
We don't belong

We don't belong  
Anywhere but each others arms  
We don't belong
