

Better Than She Did

Dasha

Damn! Why did you have to do me like that?
Was it part of your plan? Now you got me [?]
Ooooh yeah! did she teach you how to move like that?
Boy I'm not mad I'm collecting all the benefits

Are you bored all alone and you wanted some more chemistry?
Is there something you're getting from her that you didn't from me?

I know you better than she did
She doesn't need you like we did
I know we don't last the weekend
But by then I'm nothing you needing
She knows you better than I do
Known this girl since high school
But once in a while when you're lonely
And you come around just to hold me

I'll do that better than she did, she did
I'll do that better than she did, she did, she did

Damn! Why you gotta hold her so close
I understand but I don't even think that she knows, yeah
Do you wish that it's her when you're looking at me
Do your eyes shine the same like mine in your dreams
Like oooooh! boy, do you know what you're doing!?

Are you bored all alone and you wanted some more chemistry?
Is there something you're getting from her that you didn't from me?

I know you better than she did
She doesn't need you like we did
I know we don't last the weekend
But by then I'm nothing you needing
She knows you better than I do
Known this girl since high school
But once in a while when you're lonely
And you come around just to hold me

I'll do that better than she did, she did, she did
I'll do that better than she did, she did, she did

Can you tell that I'm over this shit
Can you tell, can you tell baby
That I'm so over this, that I'm so over this
Damn! why dd you have to do me like that
Was it part of you're plan, now you got me [?]

I know you better than she did
She doesn't need you like we did
I know we don't last the weekend
But by then I'm nothing you needing
She knows you better than I do
Known this girl since high school
But once in a while when you're lonely
And you come around just to hold me

I'll do that better than she did, she did, she did

I'll do that better than she did, she did, she did, yeah
