Eyeliner

Dasha

I don't wanna waste my time with caution
Maybe you've forgotten I love being a problem
Just keep tryna work for my attention
Love to keep you guessing but I'm about to give in
Something 'bout you that makes me wanna
Pull you in closer, hear you whisper my name
One look from you I'm causing drama 'cause I wanna
I think I want ya

To baby wreck all my plans
Shape my waist with your hands
Say you need me again
I don't care if it's pretty
Take the red off my lips
Be the blush on my skin
It's okay if we sink
'Cause I know hell doesn't want me
You can ruin my night anytime
Just promise that you won't make me cry
Give me your words
Make it so good it hurts
Just don't mess up my eyeliner

Started off as strangers, now we're naked
In this random basement, I'm the entertainment
[?] make it perfect so please don't mess it up
Make me fall in love just to make me cry it off
I have it all together 'til someone breaks my heart
So don't break my heart

But you can wreck all my plans
Shape my waist with your hands
Say you need me again
I don't care if it's pretty
Take the red off my lips
Be the blush on my skin
It's okay if we sink
'Cause I know hell doesn't want me
And you can ruin my night anytime
Just promise that you won't make me cry
Give me your words
Make it so good it hurts
Just don't mess up my eyeliner

Something 'bout you that makes me want you, think I wanna
Oh God I want ya

Baby wreck all my plans
Shape my waist with your hands
Say you need me again
I don't care if it's pretty
Take the red off my lips
Be the blush on my skin
It's okay if we sink
'Cause I know hell doesn't want me
And you can ruin my night anytime
Just promise that you won't make me cry

Give me your words
Make it so good it hurts
Just don't mess up my eyeliner
