

Leaving Don't Mean Goodbye

Dasha

[Verse 1]

Half of these miles on the car are from going in reverse
Now it's midnight, getting advice from the gas station clerk
She said, "Honey, sometimes broken things still work"
She ain't looking if I throw some shooters in my purse

[Pre-Chorus]

So what am I doing?
Am I losing my mind?
Hooked a U-ie
Now I'm on your porch like, "Hi"

[Chorus]

Leaving don't mean goodbye no more
If I'm gonna end up right at your door
I walked out like I'm so sure
Like there ain't no way that I'm still yours
But getting gone and moving on
Don't hit like it used to
Now I'm putting my clothes back in that drawer
'Cause leaving don't mean goodbye anymore

[Verse 2]

Said all these lines memorized just like they're rehearsed
Back up these stairs a hundred times, now my feet hurt
Guess we'll be over when the snow falls down in June
And I won't love you when there's horses on the moon

[Chorus]

Leaving don't mean goodbye no more
If I'm gonna end up right at your door
I walked out like I'm so sure
Like there ain't no way that I'm still yours
But getting gone and moving on
Don't hit like it used to
Now I'm putting my clothes back in that drawer
'Cause leaving don't mean goodbye anymore

[Post-Chorus]

Mm-mm, oh-oh-oh

[Bridge]

So confusing
When wrong is right
I hooked a U-ie
Now I'm on your porch like, "Hi"

[Chorus]

Leaving don't mean goodbye no more
If I'm gonna end up right at your door
I walked out like I'm so sure
Like there ain't no way that I'm still yours
But getting gone and moving on
Don't hit like it used to
Now I'm putting my clothes back in that drawer
'Cause leaving don't mean goodbye anymore

[Post-Chorus]

Mm-mm, oh-oh-oh-oh

Ooh-oo, not goodbye anymore
