

Love Me Till August

Dasha

We'll blame it on the timing
What isn't meant to be will never be
So I'll love you on a timeline
And when you have to leave, just leave

And I don't know what we were thinking
Maybe nothing, we were drinking
You kissed me first
So it's your fault
We have these feelings
You'll be leaving end of season
It's gonna hurt

Last day of July
One more summer night
So tell me one more time
That you'll love me till August
Love me, love me, love me
That you'll love me till August
Love me, love me, love me
That you'll love me till August

Now all we've got is one day
(All we got is one day)
So let's go out and wear our favorite clothes
I'll take pictures so that someday
You don't forget what summer stole
Skinny dipping on the west coast
Saying things that friends don't
You memorized the lines of my body as I laid close

Last day of July
One more summer night
So tell me one more time
That you'll love me till August
Love me, love me, love me
Oh, you'll love me till August
Love me, love me, love me
Yeah

Said you're going to college
In the city of Boston
To get a job in an office
Just like your father
At least you were honest
When you swore and you promised
That night when I lost it
That you could love me till August

Love me, love me, love me
Oh, you'll love me till August
Love me, love me, love me
Oh, you'll love me till August
Love me, love me, love me
You'll love me till August
Love me, love me, love me
That you'll love me till August
