

Make A Scene

Dasha

Let's make a scene
And let's make it loud
Fuck what they think
I hate this town

Let's make out on the highway make it obvious
Then go downtown to Broadway for the audience
Cause just one look at you I lose my common sense
Since all the world's a stage

Let's give them my
Red lipstick all over your skin
That big screen show so they can't forget
Your buttoned-down, button-up
Broken glass, countertops
We don't need the back room
I just gotta have you
It's Hollywood, let's make sure they see
Darling, let's make a scene
Darling, let's make a scene

Don't need a room
So I'll lock us out
Cause I want my name
In everyone's mouth

Let's make out on the highway make it obvious
Then go downtown to Broadway for the audience
Cause just one look at you I lose my common sense
Since all the world's a stage

Let's give them my
Red lipstick all over your skin
That big screen show so they can't forget
Your buttoned-down, button-up
Broken glass, countertops
We don't need the back room
I just gotta have you
It's Hollywood, let's make sure they see
Darling, let's make a scene

Ooh ooh
Darling let's make a scene
Ooh ooh
Darling let's make a scene
Ooh ooh
Darling let's make a scene
Ohh oh
Darling let's make a scene
